DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

I) Between the water soluble monomers

- a. The species of claim 50 and
- b. The species of claims 56

II) Between the LCST units

- a. The species of claim 53 and
- b. The species of claim 54

Applicant is required, in reply to this action, to elect a single species **from each set** to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1713

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Claim 30 is generic for the water-soluble monomers and claim 33 is generic for the LCST units.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Pursuant to PCT Rule 13.2 and PCT Administrative Instructions, Annex B, Part 1(f)(I)(B)(2), the species are not art recognized equivalents.

4. A telephone call was made to Richard L. Treanor on 7/4/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Claims 27,31,34,37,38,46-48,51,52 and 57-60 are currently withdrawn as being drawn to non-elected inventions of species of inventions.
